RE: Compliance with Buy America Act

To Whom It May Concern:

C.J. Anderson & Company fully complies with the Buy American Act (41 USC 10a – 10d) as well as the Buy American provisions under the clause entitled 52.225-9, Buy American Act --- Construction Materials (SEP 2010).

C.J. Anderson & Company is a US based manufacturer of Elevator Signal Fixtures, Elevator Door Locking Devices, Elevator Gate, Limit and Floor Switches, Custom Elevator Control Systems and Elevator Retiring Cams. The corporation has one manufacturing facility located in Harwood Heights, Illinois. This facility provides 100% of the metal fabrication, electrical component assembly, testing, and final assembly of all products manufactured by employees at our company.

Our fully assembled products consist of approximately 20% sheet metal, 65% metal zinc die cast, aluminum, yellow brass, and gray iron castings and 15% plastic and electrical components when calculated by weight. The following summarizes the US content of each of the major components:

Component	% US Origin
Stainless Steel	100%
Galvanized Steel	100%
Cold Rolled Steel	100%
Cast Yellow Brass	100%
Zinc Die Cast	100%
Aluminum Castings	100%
Injection Molded	100%
Plastic Components & PC Boards	95%

In total 100% of all fabrication and assembly of our products are completed in the US and 100% of the iron-based sheet steel and castings in our products originates from US mills and distribution centers.

Please contact me if additional information is required.

Sincerely,

Tom Sybert
